## About Us

Schoolvue was established by a group of educators with the aim to provide tools and expertise to enable schools to thrive whilst providing excellent value for money. We work with Schools day in day out collaboratively to develop our offering.

Our platform has been developed in partnership with schools. **Built by teachers, for teachers!** 

Our Customers: Multi Academy Trusts Primary Schools Secondary Schools

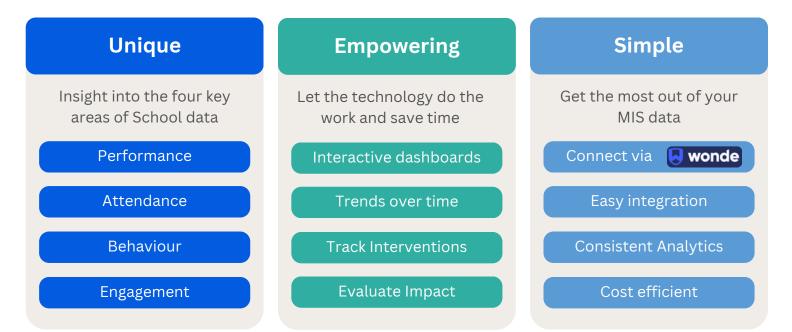

FE Colleges Special Schools Pupil Referral Units

"The intelligent use of data affects the work of all professionals involved in education. There can be no going back to the days when decisions were made on hunches and anecdotal information. Using data effectively will help everyone involved in school improvement."

Jon Munt, Founder

## Why Use SchoolVue?

Give your staff the key information they need to support students

## What People Say

R. Royston Head of School

"We have been using the SchoolVue platform for some time now. If anyone is looking for a single platform that enables teachers and leaders to analyse behaviour, attendance and assessment data then I would highly recommend. In addition, the engagement module enables recording and analysis of student engagement in extra-curricular / personal development opportunities like no other."

D. Lucas Executive Headteacher

"We used to use several software packages, but don't any more as the SchoolVue online education suite is so much better. We use the Performance analysis, My Class, and the Behaviour modules. The data tools are used by teachers, middle leaders, governors and the SLT. Our interventions are mapped on the system - so we can look closely at impact."

C. Ferguson Assistant Headteacher

"Your behaviour insights module is amazing! I reckon it just saved me four hours of work I would have spent trying to get information out of our MIS and analysing it."

V. Beales Executive Headteacher

"The Student Engagement module of SchoolVue has transformed the way we run Personal Development. We are now able to monitor and track students' engagement in clubs, societies, competitions and all other Personal Development opportunities at a click of a button. This means that we can view and analyse the level of engagement our individual students or groups of students easily and encourage further engagement as necessary.

We were inspected by Ofsted recently and the inspectors were very impressed with our use of SchoolVue to track students' engagement in personal development."

# What can SchoolVue do?

SchoolVue is a powerful analytics tool designed to drive school improvement and bring your school data together.

Use data effectively to unlock barriers to learning. Save your staff valuable time spent crunching data and allow them to focus on the students.

Transform the way your stakeholders engage with school data.

Your School Data , Made Easy

#### Performance

When it comes to academic data, Schools are rich environments. SchoolVue will analyse the data for you.

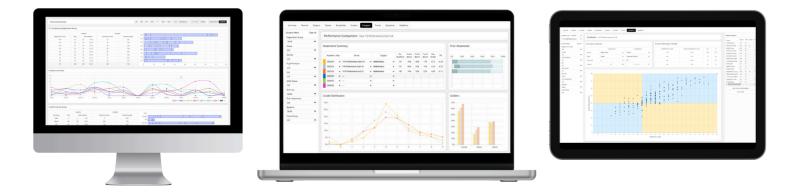

- Analytics for all year groups
- Performance grades and Engagement in learning data side by side
- Bespoke progress maps
- Accountability measures
- Compare trends over time

#### Attendance

Analyse your school's MIS attendance data to identify areas of strength and weakness. Save hours of time running reports from your MIS.

- Whole School Summary
- Persistent Absence
- Key Groups
- Student focus
- Save hours of time extracting and analysing data

### **Behaviour**

Identify trends in your MIS student behaviour and exclusions data before it goes wrong. Make meaningful interventions.

- Student rankings
- Trends over time
- Focus on year groups and key groups
- Student overview vs year group
- Teacher trends

### Engagement

Evaluate your wider curriculum offering and gain insight into which students are engaging. Develop the students cultural capital.

- Define your ethos pillars
- Monitor Clubs, Events and Challenges
- Audit your offering what are the student opportunities and who is contributing?
- Be ready for those tricky Ofsted questions

# Bringing Your Data Together

SchoolVue seamlessly collates the student data from the individual modules. This provides powerful insight into the student. No more looking for information in different places.

The inbuilt **Student Focus** tool is the starting point for identifying where support is needed and where success can be celebrated.

This information is also made available to class teachers in the **My Class** seating plan tool.

## Next Steps

### Book your free demo

Use the QR to arrange a 30 minute meeting with a member of the team

### Decide which modules you want

Prices will depend on which modules you want and the type of school you are. Once you have decided on your modules, we will send you a license agreement for signing

### **Approve Wonde connection**

Once you have approved the Wonde connection your MIS data will flow into SchoolVue ready for you to use

### Start using SchoolVue

Your administrator will be issued a welcome email and our team will be there to support them to get up and running
